Subject: [External] Proposed Dominion rate hike. Say No!!!

Dear Sirs: any proposed rate hike at this time is a attack on an already damaged economic situation our citizens are dealing with. Look at the profit margin that this company has and understand what you are doing. You represent the people not businesses. The past has shown you go along with companies who request hikes. Represent the people and say NO!!! to the request to increase the charges to our people.
Do your job!
